

The Highland

2,204 sq. ft.

The design concept of the Highland is unique because it combines a normal two-story colonial layout with contemporary features. The Great Room includes a cathedral ceiling, transom windows and a dramatic fireplace location. It also has a stunning vaulted Entry, which is sure to impress all who pass within this home. The private formal Dining Room has a classic walkout bay window and is spacious in size. The Breakfast area is conveniently located next to the Kitchen, which could offer a peninsula or island type layout. Upstairs you will find three spacious bedrooms and a conveniently located Laundry Room. The Master Bedroom suite features an upscale luxury bath, large walk-in closet and a spectacular tray ceiling accented by a round topped gabled front window. Our Highland is a show stopper.
